EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Daniel S. Kasten on January 13, 2004.

The application has been amended as follows:

Please amend claim 1 as follows:

Claim 1 (currently amended): A polypeptide which activates GFR α 1-RET but does not substantially activate GFR α 2-RET or GFR α 3-RET, wherein

(a) said polypeptide comprises a persephin sequence essentially as set forth in SEQ ID NO: 1, and differing there from only by the presence of ~~with~~ substitutions in region F2a (amino acids 60-67 of SEQ ID NO: 1) and substitutions in region F2c (amino acids 77-83 of SEQ ID NO: 1),

(b) the substitutions in region F2a comprise from four to eight amino acids that are identical to region F2a of a GDNF family ligand,

(c) the substitutions in region F2c comprise from seven to eight amino acids that are identical ~~to~~ to region F2c of a GDNF family ligand,

(d) the GDNF family ligand is a peptide of SEQ ID NO: 4.

2. Claims 1, 6-9 are allowed. Claims have been renumbered as 1-5, respectively.

Drawings

3. Figures 2-8 of the instant application are presented on separate pages or in separate panels. 37 C.F.R. § 1.84(u) (1) states that when partial views of a drawing which are intended to form one complete view, whether contained on one or several sheets, must be identified by the same number followed by a capital letter. For example, the three panels of Figure 2 in the instant specification should be renumbered “Figure 2A” – “Figure 2C” rather than “Figure 2, A, B, C”. Applicant is reminded that once the drawings are changed to meet the separate numbering requirement of 37 C.F.R. § 1.84(u) (1), the specification should be amended to change the Brief Description of the Drawings and the rest of the specification to refer to each Figure accordingly. If, for example, Figure 2 is divided into Figures 2A-2C, then the Brief Description and all the references to this figure in the specification must refer to this Figure in the same manner.

In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.
